**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
JUNE 30, 2022**

1. Organization and Nature of Operations

Sustainable Projects Group Inc. (“the Company”) was incorporated in the State of Nevada, USA on September 4, 2009 as Blue Spa Incorporated which was engaged in the development of an internet based retailer of a multi-channel concept combining a wholesale distribution with a retail strategy relating to the quality personal care products, fitness apparel and related accessories. On December 19, 2016, the Company amended its name from “Blue Spa Incorporated” to “Sustainable Petroleum Group Inc.” On September 6, 2017, the Company obtained a majority vote from its shareholders to amend the Company’s name from “Sustainable Petroleum Group Inc.” to “Sustainable Projects Group Inc.” to better reflect the business it has undertaken. The name change was effective on October 20, 2017.

The Company is a multinational business development company that pursue investments and partnerships with companies across sustainable sectors. It is continually evaluating and acquiring assets for holding and/or for development. The Company is involved in consulting services and collaborative partnerships.

The Company’s year-end is December 31.

2. Going Concern

These condensed consolidated interim financial statements have been prepared in conformity with generally accepted accounting principles in the United States or “GAAP”, which contemplate continuation of the Company as a going concern. However, the Company has limited operations and has sustained operating losses resulting in a deficit. In view of these matters, realization of a major portion of the assets in the accompanying balance sheet is dependent upon the continued operations of the Company, which in turn is dependent upon the Company’s ability to meet its financing requirements, and the success of its future operations.

The Company has accumulated a deficit of \$3,322,696 since inception and has yet to achieve profitable operations and further losses are anticipated in the development of its business. The Company’s ability to continue as a going concern is in substantial doubt and is dependent upon obtaining additional financing and/or achieving a sustainable profitable level of operations. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company has \$25,924 cash on hand as at June 30, 2022. The Company will need to raise additional cash in order to fund ongoing operations over the next 12 month period. The Company may seek additional equity as necessary and it expects to raise funds through private or public equity investment in order to support existing operations and expand the range of its business. There is no assurance that such additional funds will be available for the Company on acceptable terms, if at all.

3. Summary of accounting policies

Basis of presentation

While the information presented is unaudited, it includes all adjustments, which are, in our opinion of management, necessary to present fairly the financial position, result of operations and cashflows for the interim period presented in accordance with accounting principles generally accepted in the United States of America. All adjustments are of a normal recurring nature. These consolidated interim financial statements should be read in conjunction with the Company’s December 31, 2021 annual financial statements. Operating results for the six months ended June 30, 2022 are not necessarily indicative of the results that can be expected for the year ended December 31, 2022.

The accompanying condensed consolidated unaudited interim financial statements include the accounts of the Company, its wholly subsidiary YER Brands Inc., and its joint venture, Hero Wellness Systems Inc. (formerly Vitalizer Americas Inc.) The Company controls 55% of Hero Wellness Systems Inc. Pursuant to Accounting Standards Codification Topic 810, the joint venture company is considered as a variable interest entity that requires the Company to consolidate its account. All intercompany balances and transactions have been eliminated in the consolidation. The operating results of the joint venture have been included in the Company's consolidated financial statements and the non-controlling interest that were not attributable to the Company have been reported separately.

Significant Accounting Policies

There have been no material changes in the Company's significant accounting policies to those previously disclosed in the December 31, 2021 annual report.

Use of estimates

The preparation of the consolidated interim financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Management makes its best estimate of the ultimate outcome for these items based on historical trends and other information available when the financial statements are prepared. Changes in estimates are recognized in accordance with the accounting rules for the estimate, which is typically in the period when new information becomes available to management. Actual results could differ from those estimates.

Segment Reporting

The Company reports segment information based on the "management" approach. The management approach designates the internal reporting used by management for making decisions and assessing performance of its corporation wide basis in comparison to its various businesses. The Company has three reportable segments. The business operations consist of Hero Wellness Systems, YER Brands and Sustainable Projects Group. The segments are determined based on several factors including the nature of products and services, nature of production processes and delivery channels and consultancy services. The operating segment's performance is evaluated based on its segment income. Segment income is defined as the gross sales and miscellaneous income. At June 30, 2022, revenues were reported as follows:

Overview

The following discussion of the Company’s financial condition, changes in financial condition and results of operations for the six months ended June 30, 2022 should be read in conjunction with the Company’s audited consolidated financial statements and related notes for the full year ended December 31, 2021.

The Company is a business development company engaged in project development and holdings through value based investments and collaborative partnerships with companies across sustainable sectors. It is continually evaluating and acquiring assets for holding and or development. The Company initiated its goals by pursuing investment and partnerships amongst diversified holdings and companies globally. The Company is currently involved in the evaluation and acquisition of assets and partnerships for holding or business development activities with a continued focus on sustainability projects.

The Company’s plan of operation for the next 12 months is to continue to evaluate and acquire assets and partnerships for holding or business development activities, and to collaborate, develop and create new assets with a continued focus on sustainability. The Company is currently evaluating other projects to find attractive partnerships to expand the Company’s business development activities. Other projects of interest that management is currently researching are in the field of sustainability.

Covid-19 has had a significant impact on development of legacy projects, as well as the sourcing of new participations and partnerships. The company has experienced significant difficulty in virtually all aspects of project development, including but not limited to access to funding, sourcing of materials and machinery as well as staffing. For this reason, the company has undertaken a stringent cost cutting and operations optimization plan.

Currently, the Company is engaged in the following projects:

1. Hero Wellness Systems Inc. and
2. YER Brands Inc.

1. *Hero Wellness Systems Inc.*

Hero Wellness Systems Inc. (“Hero Wellness”) –Pursuant to the terms and conditions of a shareholder’s agreement dated in September 29, 2018, the Company entered into a joint venture relationship originally for the purpose of importing, selling and distributing products offered by Vitalizer International of Switzerland. However, due to supplies and other processing issues, Hero Wellness has sourced its own supplier and is now importing, selling and distributing its own products. The Company’s participation in the joint venture is 55%. The Company’s role is to provide certain services, including general management and day to day operations of the joint venture. Currently, the joint venture is comprised of the following ownership: 55% the Company with the balance of ownership held by two non-controlling owners.

The Company was previously focused almost exclusively on the B2B market segment of the lifestyle and healthcare markets. B2B clients consisted of spas and salons, hotels and hospitality and entertainment venues in the United States. Covid has led to a near total collapse of B2B customer interest due to changes in disinfection between users and other safety protocols relating to Covid 19. This has led to a refocus on the B2C segment, focusing on direct to consumer sales through the company’s webstore www.herochroma.com and additional websites operated by the company.

Hero Wellness Systems Inc. is dependent upon a functioning supply chain, as it sources finished products from its suppliers in China. Hero Wellness sees this as a risk-factor and is looking for alternative suppliers at this time. Thus far, the supplier has never experienced inventory shortfall, however increased logistics rates pose a risk to increased cost of goods sold. Additionally, due to its targeting retail customers through internet sales, as well as key account management to gain corporate customers, Hero Wellness is not dependent on singular customers. However, the company’s products are considered luxury lifestyle products and thus are dependent on healthy consumer spending behavior. Slowdowns in consumer confidence could have a negative impact on purchasing behavior of these types of products across the economy. Additionally, the past 18 months have seen significant price erosion in the luxury massage chair segment, with several generic Chinese competitive products entering the market. This led to significant price pressures in this segment.

Hero Wellness Systems operates in a crowded market place. Several providers of massage chair products from low-end to high-end exist. Hero Wellness Systems Inc. operates in the high end-spectrum, competing against a number of established companies. The company aims to differentiate itself from existing providers through a higher level of service, including white glove delivery and significantly faster delivery times (through a US based in-sourced logistics operation).

2. YER Brands Inc.

On May 8th, 2020 Sustainable Projects Group Inc. signed a letter of intent with inventors of the Soy-yer Dough product line, Sawyer and Samantha Sparks, to purchase all production rights, know-how, trademarks and manufacturing equipment of Soy-yer Dough. Soy-yer Dough is a soy and corn-based, gluten free modelling clay. It is estimated that up 6% of the US population suffers from some form of gluten intolerance, with approximately 1% of the US population suffering from the more severe form, Celiac Disease.

The product gained initial commercial success when it was featured on the TV Show ABC's Shark Tank and was named as one of the most innovative product inventions by college students in the New York Times newspaper. Since its invention, the product has been sold in all 50 states in the United States, and to a smaller extent internationally, both online and in retail locations. However, with limited production capabilities and resources, growth prospects were limited.

Sustainable Projects Group has formed YER Brands Inc. as a wholly-owned subsidiary to establish increased production and distribution capabilities of the Yer Dough product line. Inventor and face of the brand, Sawyer Sparks, has agreed to take on the CEO position, while his wife and co-inventor Samantha Sparks will be responsible for production. Production facilities will be co-located with one of the Company's portfolio companies, Cormo USA Inc. manufacturing facility to benefit from raw material sourcing, logistics and marketing infrastructure synergies. As of May 8th, the new company had begun site improvement at the Rushville production site and shipped first retail-ready products by mid-May 2020. Currently the company does not produce retail ready products as the lack of production facilities, and significant problems in upscaling the production process will require significant development processes.

Previously Soy-yer Dough was sold through the Online B2C, Brick and Mortar, and Scholastic Market. Over the past years, predominantly driven by limited production capacities, a heavy focus was placed on the scholastic market. With COVID-19 related shutdowns, that market has been severely impacted and is currently virtually non-existent even as schools have reopened across the United States.

Upon production start, YER Brands Inc. had hoped place initial focus on low-hanging online sales opportunities and upon increasing production capabilities later in 2020 in the scholastic market. At this time these opportunities have not materialized. Management does not anticipate significant revenues from the scholastic sales channel until future periods.

There is a multitude of modelling clays available on the market, Soy-yer Dough shines as a "Made in the USA" and a "Gluten-Free" product with a long track record of positive reviews in the US media. Management believes the product is well positioned for market expansion in the near term. Additionally, YER Brands Inc is in the planning stages for additional, value-added products that involve Soy-yer Dough modeling clay to further the product portfolio and potential revenue and profit generation.

The majority of raw ingredients required for the formulation of the product are widely available and produced in the United States. The company does not anticipate supply chain issues for the main ingredients of the Soy-Yer Dough line of products. Additional raw materials are widely available, and several sources of suppliers exist. The Company is not dependent on one single source of supplies for any of its ingredients and packaging materials and management sees limited supply chain and sourcing risks.

At this time, Yer Brands Inc. is searching for a production partner able to upscale the process and to comply with more stringent regulatory requirements

In addition, management anticipates incurring the following expenses during the next 12 month period:

- Management anticipates spending approximately \$7,500 in ongoing general and administrative expenses per month for the next 12 months, for a total anticipated expenditure of \$90,000 over the next 12 months. The general and administrative expenses for the year will consist primarily of professional fees for the audit and legal work relating to SPGX's regulatory filings throughout the year, as well as transfer agent fees, development costs and general office expenses.
- Management anticipates spending approximately \$30,000 in complying with SPGX's obligations as a reporting company under the *Securities Exchange Act of 1934*. These expenses will consist primarily of professional fees relating to the preparation of the Company's financial statements and completing and filing its annual report, quarterly report, and current report filings with the SEC.

As at June 30, 2022, the Company had cash of \$25,924 and total liabilities of \$451,507. During the 12 month period following the date of this report, management anticipates that the Company will not generate enough revenue to continue the development of current projects and projects in the pipeline. Accordingly, the Company will be required to obtain additional financing in order to continue its plan of operations. Management believes that debt financing will not be an alternative for funding the Company's plan of operations as it does not have tangible assets to secure any debt financing. Rather management anticipates that additional funding will be in the form of equity financing from the sale of the Company's common stock. However, the Company does not have any financing arranged and cannot provide investors with any assurance that it will be able to raise sufficient funding from the sale of its common stock to fund its plan of operations. In the absence of such financing, the Company will not be able to develop its products and its business plan will fail. Even if the Company is successful in obtaining equity financing and developing its various business ventures, additional development of its website and marketing program will be required. If the Company does not continue to obtain additional financing, it will be forced to abandon its business and plan of operations.

Future Financings

Management anticipates raising financing through debt financing or the sale of The Company's common stock in order to continue to fund its business operations. Issuances of additional common stock will result in dilution to The Company's existing stockholders. There is no assurance that the Company will achieve any additional sales of its common stock or arrange for debt or other financing to fund its planned activities.

Inflation

Management anticipates increased inflation in all areas of operations. First impacts, particular in freight rates can be anticipated on supplies imported by Hero Wellness Systems Inc, due to increase container shipping rates.

In connection with the preparation of this quarterly report on Form 10-Q, an evaluation was carried out by management, with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of June 30, 2022.
